

Career News For Parents

TurningPoint
My Future. My Career.  My Choice.

Welcome.....

to the summer edition of Career News from Turning Point.

Do you have child with an entrepreneurial spirit? Or do you know an adult with an interesting business idea or invention? Do you know of a local business that would serve as a good resource for entrepreneurs? Here's a web site for you.

The *Workforce Development Alliance (WDA)* and *Region IV Development Association* have launched a beta test web site, *Idaho Entrepreneurial Advantage*, [IdeAHelp.net](http://www.IdeAHelp.net). This is an on-line resource designed specifically for individuals with ideas or inventions that they want to turn into a business.

The site will be in "test" mode through late September, where southern Idaho entrepreneurs and related service providers can sign up, use the site and provide feedback. Once the site is refined as a result of this feedback, [IdeAHelp](http://www.IdeAHelp.net) will be the most comprehensive source available to help entrepreneurs, innovators and inventors across Idaho transform their unique ideas into businesses.

Businesses and other organizations that support entrepreneurs such as CPA's, attorney's, business consultants, etc., are encouraged to sign up on the site as a service provider.

Users will find that the site provides a variety of tools that will support, assist and guide them through the many steps necessary

toward creating a business – from idea assessment, feasibility, developing a business model to creating an executive summary for potential investors – and accessing local service providers to help them during each.

Learn more by logging on to: www.IdeAHelp.net or contact Rick Ritter, Idaho TechConnect at 208-870-0674

Regional Professional Technical Programs and Academies Offered in Area High Schools

There are many ways for high school students to earn college credits through high school high-end professional technical programs and academies.

There are numerous professionally advanced programs in eight of our area high schools that provides students with outstanding career training in numerous fields. Various programs offer online or hands on credit that teach specialized skills toward industry certifications. Students that complete these programs can enter the workforce immediately at earn up to \$30,000 to \$40,000 a year. Credits can also apply as college credits. Programs offered are as follows:

- [Buhl High School](#): Automotive Technology
- [Cassia Regional Professional Technical Center](#): Automotive Technology, Electronics, Health Occupations and Residential Construction
- [Gooding High School](#): Health Professions and Cabinetry/Millwork
- [Jerome High School](#): Information Technology

- [Kimberly High School](#): Information Technology
- [Minico High School](#): Diesel Mechanics, Information Technology, Health Occupations and Residential Construction
