

TurningPoint

My Future. My Career. ↩ My Choice.

Welcome.....

to the spring edition of Career News from Turning Point.

For students interested in learning more about local careers in construction or manufacturing, *"Heavy Metal & Ca\$hing In"*, April 28 - 29 at CSI on North College Road, will be a great opportunity to get hands-on experience in various tasks from these industries.

This is the region's primary event to expose students and the general public to well-paying careers and job requirements in construction and manufacturing.

Sponsored by the Workforce Development Alliance (WDA), the *"Heavy Metal & Ca\$hing In"* will include heavy equipment operation, hands-on demonstration modules where traditional trade tasks such as framing, drywall, electrical and plumbing can be performed.

Construction/manufacturing businesses, industry associations and educators will be on hand with education exhibits and to offer short informational sessions about programs, services and courses available to support those interested in learning about manufacturing and construction jobs.

CSI will also hold a Career Fair on April 28 during this event so students can get even more hands-on experience in a wide range of other industries; including health science, agriculture, physical science, physical education, technology and education. [HandsOn 2010](#)

Students are encouraged to check-out the Job Fair on April 28 in CSI's Gym to talk with potential area employers.

For more information or to participate in this event, contact: Cyndie Woods at 732-6328 or cwoods@csi.edu
